V03

Nata nel 1919 a Torino Aurora è oggi un'azienda leader nella produzione e nella commercializzazione di strumenti di scrittura, pelletteria fine, orologi e carta.

La passione per la bellezza, lo stile e la straordinaria qualità dei singoli dettagli, valori fondanti dell'impresa, uniti ad una continua attività di ricerca, ne fanno un **vero ambasciatore del Made in Italy** di eccellenza nel mondo.

TRADIZIONE "MADE IN ITALY"

Guidata dalla famiglia Verona, da quattro generazioni coinvolta nel mondo della scrittura, Aurora resta oggi l'**unico marchio autenticamente italiano** nel suo settore, con un unico stabilimento a Torino.

Fin dalla sua fondazione, l'azienda ha guidato l'evoluzione degli strumenti di scrittura, creando oggetti esclusivi in perfetto equilibrio tra artigianalità e innovazione. Fasi produttive altamente tecnologiche si affiancano a lavorazioni tipiche della tradizione orafa in cui l'utilizzo di materiali e metalli pregiati trasforma ogni penna in un vero e proprio gioiello.

DIMENSIONE INTERNAZIONALE

Riconosciuto e apprezzato a livello internazionale, il marchio Aurora è sinonimo nel mondo di eccellenza Made in Italy.

Le esportazioni contribuiscono al 68% del fatturato e sono destinate a crescere, grazie ad una solida presenza in oltre 50 paesi e all'apertura di punti vendita monomarca e corner personalizzati in Europa, America, Asia ed Emirati Arabi.

L'attuale struttura aziendale, snella e flessibile, garantisce la massima rapidità di reazione alle evoluzioni del mercato ed alle richieste di una clientela sempre più diversificata ed esigente.

CULTO DELLA BELLEZZA

Attraverso la costante ricerca di soluzioni stilistiche all'avanguardia e la collaborazione di designer di fama internazionale, Aurora ha scritto alcune delle più importanti pagine della **storia del design**.

Solo per citarne alcuni: nel 1947 **Marcello Nizzoli** creò il celebre modello "88", classico della scrittura che ha venduto oltre 7 milioni di pezzi ed è ancora in produzione;

nel 1970 **Marco Zanuso** disegnò HASTIL e THESI, i primi strumenti di scrittura ad essere esposti al **MOMA di New York**, tutt'ora in mostra accanto ai capolavori del design italiano.

STRUMENTI DI SCRITTURA

La penna, da semplice strumento di scrittura, si caratterizza oggi come accessorio elegante e ricercato, segno inconfondibile della propria personalità, espressione di un piacere quotidiano.

Aurora è l'unica azienda in Italia e tra le poche al mondo a **produrre il pennino**, vero cuore della penna, offrendo così alla clientela la possibilità di scegliere il proprio stile di scrittura in un'ottica di fine sartorialità, oltre a creare per i collezionisti di tutto il mondo prestigiose edizioni in serie limitata e numerata.

Born in Turin in 1919, today Aurora is a leading company for the manufacture and sales of writing tools, light leatherware, watches, and paper products. Its passion for beauty, style, quality, and extraordinary care for the slightest details – which are the founding values of the company – are supported by continuous research activity, making it a true excellence and **ambassador of Made in Italy** across the world.

“MADE IN ITALY” TRADITION

Managed by the Verona family – with a 4-generation experience in the writing world – today Aurora remains the **only authentic Italian brand** in its sector, with a single production facility in Turin.

Since its foundation, the company has led the evolution of writing tools, by creating exclusive objects in a perfect balance of handcraft and innovation. High-tech production processes are paired with the typical techniques of the goldsmith tradition, in which the use of precious metals and other materials turns every pen in a fair and square jewel.

INTERNATIONAL DIMENSION

With its international recognition and appreciation, the Aurora brand is a symbol of the excellence of Made in Italy products.

Exports contribute to 68% of its turnover and are projected to grow, backed by a solid presence in over 50 countries and the opening of single-brand stores in Europe, the United States, Asia, and the United Arab Emirates.

Its current lean and flexible corporate structure guarantees quickness in response to market evolution and the requests of a growingly diverse and demanding customer pool.

THE CULT OF BEAUTY

Through constant search for cutting-edge style solutions, as well as cooperation with world-class designers, Aurora has written some of the most important pages in **design history**.

Just to mention a few: in 1947 **Marcello Nizzoli** created the famous model “88”, a classic in the writing world, with over 7 million pieces sold and still manufactured today;

in 1970 **Marco Zanuso** designed HASTIL and THESI, the first writing tools to ever be exhibited at the **New York MoMA**, still on show beside the other masterpieces of Italian design.

WRITING TOOLS

Once considered a simple writing tool, today the fountain pen is viewed as an elegant and sophisticated object; an unmistakable sign of one's identity, and the expression of a daily pleasure.

Aurora is the only company in Italy and among few global **manufacturers of nibs**, the true heart of fountain pens, offering its customers the possibility of choosing their own writing style in the scope of fine tailoring, as well as to create limited and numbered editions for collectors worldwide.
